

ORGÀNICS CLEAN AWARDS

The Most Demanding Awards on Cosmetics

CATEGORIES

There are three types of categories in the V ORGÀNICS CLEAN AWARDS:

PRODUCT CATEGORY: All products presented participate in it, regardless of whether they are natural / organic / biodynamic certified or clean.

BRAND CATEGORY: All brands that have submitted 3 or more products are eligible in the brand categories. There are three brand categories:

1. **CERTIFIED (NATURAL / ECOLOGICAL / BIODYNAMIC).** All the brands that had applied with 3 or more products with, at least, the 80% of their products are certified natural, organic or biodynamic. Also, they have to accomplish with the **Anex 1 Prohibited Ingredients**.
2. **CLEAN BRAND:** All the clean non certified brands that had applied with 3 or more products. Also they have to accomplish with the **Anex 1 Prohibited Ingredients**.

SPECIAL CTEGORY: All the brands, whether they have submitted one or 10 products, are participating in the Special Categories Brand Awards.

GENERAL CRITERIA

A.

For participations in the **Natural Certified Category**, the participating products / brands must be **certified** (or accredit being in the process of certification) by one of the European certifiers, as Natural / Organic / Biodynamic with the 80% of their cosmetic products or more by one of this certifier:

Acene, AIAB, Austria Bio Garantie, Balcan Biocert, BDIH, Bio Cert Italia, Biogarantie, Bio Austria, Bio Inspecta, Bioland, Bio Siegel, CCPB, Cosmebio, COSMOS, Demeter, Ecocert, Eco Control, ICEA, Natrue, Soil Association, Suolo e Salute, Swan Label.

Or the non european:

Australia Certified Organic, NASAA, JAS, NSF, USA, Oasis Organic, USDA.

As any other international natural certified, but **always complying with the requirement of the I Annex: Prohibited Ingredients**. The brands that opt for the awards as Natural / Organic / Biodynamic Certified Brand must have at least 80% of their cosmetic products certified, if not the brand will only qualify in the Clean Brand Category.

B.

To participate in the Non-Certified Clean Label categories, participating brands must meet all the requirements of Annex I Prohibited Ingredients.

C.

All products presented in the V Orgànics Clean Awards must have the participating products on sale since june 2023 with the certificate in force in the case of certified cosmetics.

D.

Brands with multiple lines are not eligible for brand awards if any of the products in the line contain any of the ingredients listed in **Annex I Prohibited Ingredients**, except those marked with an asterisk which are not eligible for awards, but can be present in other products of the brand.

E.

Only brands that have at least 80% of their products certified may apply for the Certified Mark Categories. The remaining 20% of products must comply with **Annex I Prohibited Ingredients**. The brands that apply for the Clean Brand Categories, all the products may comply with the **Annex I Prohibited Ingredients**.

F.

In the case of make-up, several colours of the same product may be submitted in order to better adapt to different skins, and the INCI may vary only in the mixture of pigments but not in the composition of the rest of the product.

The prize will be awarded in the case of foundations and pre-foundations to the product itself and in the case of lipsticks, blushers, eyeshadows and eye and lip pencils the prize will be given to one of the shades.

The same criteria will be followed for perfumes, home perfumes, candles and air fresheners. Several products can be submitted under the same nomination, but the award will be given to one of the scents and not to the whole line.

Product and brand prizes will be awarded on the basis of the following:

PRODUCTS CRITERIA

A.

Results: The products will be tested by a mixed panel of skins chosen by *Organics Magazine*, both people related to the world of organic cosmetics and people outside it, with an age range between 1 and 75 years and various skin conditions: sensitive skin, with atopic dermatitis, with rosacea, mixed, dry, mature, young, kids&babies...

The results will be an important part of the testing, i.e. that the product fulfils the claim it proposes.

B.

Sensory qualities. When it comes to cosmetics, sensoriality is one of the most important parts. The use of products with textures, natural scents, absorption levels and skin comfort are taken into account by our jury.

C.

Purity: The use of oils, butters, extracts and active ingredients in the upper part of the INCI, as well as the way they are extracted (supercritical CO₂, first cold pressed oils, raw materials...) will be valued.

D.

Packaging: design, quality of packaging, sustainability of packaging, minimisation of the use of plastic, absence of unnecessary elements...

E.

Price-quality ratio.

GENERAL CONDITIONS

A.

The participation fee for the product categories ranges from 115 Euro (+VAT) to 410 Euro (+VAT).

From the fourth product onwards, special discounted rates apply.

A 15% discount per application applies until 20 of November 2022.

For each cosmetic or nutricosmetic product, you can submit **one tool or household product free of charge** which will compete in the corresponding categories (see in categories)

B.

For each product submitted, the brand or distributor **shall send in retail size before 1 January 2023 (after 10 January, no products will be accepted and no refunds will be given):**

4 UNITS RETAIL SIZE

1. Facial products: serums and oils (30ml), and facial creams (50ml). If the products are of a smaller size (e.g. a 15ml serum), double the number of products will be submitted.
2. Utensils that can be shared: gua-sha, bowls, ceramic spoons, rollers...
3. Pet products.

6 RETAIL SIZE UNITS

4. Eye contour.
5. Facial cleansing products: micellar waters, liquid soaps, tonics, hydrolats, balms, oils...
6. Facial products: ampoule treatments, anti-spot treatments or other specific products that require a longer testing time to see their results.
7. Facial and body masks and scrubs (but not single-dose products).
8. Facial and body sunscreens.
9. Body products: body creams, oils, moisturising milks...
10. Body treatment products: anti-stretch marks, anti-cellulite, products for tired legs... 6 units or enough product for a full treatment for 6 people.

- 19. Household products: candles, scents, incense...
- 20. Roll-on products.
- 21. Single-dose products.

If additional products are required, the brand must send the necessary units within one week so that the testing of the products is up to standard.

C.

Sunscreen products must be accompanied by **documentation showing the absolute absence of nanoparticles**, including a report detailing the smallest particle, largest and average size of the mineral sunscreen used. Also, the size must be stated excluding the coating.

If it is subsequently discovered that the product contains filters with nanoparticles, the award will be withdrawn.

D.

From the third product submitted onwards, direct access is granted to the Brand Awards, participating in all the categories applicable to it within its category (Certified Natural / Organic / Biodynamic or Clean Brand).

E.

The Special Brand Awards are given to those brands that are strongly committed to one of the values that inspire each of the categories, **regardless of the number of products presented**.

It is a recognition of a brand's philosophy, and not so much of its products.

F.

Any brand or product category may be declared void if the products submitted do not meet the requirements for the award.

Similarly, runners-up prizes may be awarded to brands and products deserving extraordinary recognition.

G.

If any of the products contain any of the toxic ingredients listed in **Annex I Prohibited Ingredients**, **they will not be eligible for any award and will not be reimbursed**.

However, the brand may recover the products at its own expense.

Similarly, a brand will be excluded from the Brand Awards if any of its products contain any of the ingredients listed in **Annex I Prohibited Ingredients**, **but those with asterisk that can be present in other products of the brand**.

H.

The winning and finalist brands, as well as the accessits, will receive the png stamp on the day of the awards ceremony to be used on their products, websites and packaging **without any additional cost or limitation**.

I.

The award does not expire and will only be withdrawn if the product or brand ceases to be certified or **changes its composition by more than 20% of the ingredients downwards** (e.g. substituting water for hydrolate, but not vice versa).

If, on the other hand, it includes any of the prohibited ingredients, any product or brand award obtained will be immediately revoked.
